

Variables in data_experiment.csv

Variable	Type	Description
id	integer	Unique respondent ID
weight	numeric	Respondent weight
matchNum	integer	Choice scenario number (matches description in Appendix B; this is NOT the order in which the choices were displayed)
candNum	integer	Candidate 1 or 2 (always 1 for D-; randomly assigned for D+)
c_win	binary	Did the respondent prefer candidate 1?
c_vote	binary	Did the respondent say they would vote in this election?
c_party	character	Candidate 1's party (one letter)
c_Party	character	Candidate 1's party (full word)
c_prox	numeric	Respondent's bundle rating for candidate 1 (description in Appendix B)
c_proxSq	numeric	Square of respondent's bundle rating for candidate 1 (description in Appendix B)
c_distance	numeric	Spatial distance between candidate 1 and respondent (description in Appendix B)
c_pRate	numeric	Respondent's policy rating for candidate 1 (description in Appendix B)
c_pRank	numeric	Respondent's policy rank for candidate 1 (description in Appendix B)
c_distSq	numeric	Square of spatial distance between candidate 1 and respondent (description in Appendix B)
c_pRateSq	numeric	Square of respondent's policy rating for candidate 1 (description in Appendix B)
c_pRankSq	numeric	Square of respondent's policy rank for candidate 1 (description in Appendix B)
c_p1_code	character	Candidate 1's economic policy position (E1-E4, T1-T4)
c_p1_rate	numeric	Respondent's rating of candidate 1's economic policy position
c_p1_area	character	Candidate 1's economic policy area (E or T)
c_p1_num	integer	Candidate 1's economic policy number (1-4). This doubles as a liberal (1) to conservative (4) scale.
c_p1_imp	numeric	Respondent's importance rating of candidate 1's economic policy area
c_p1_ideal	integer	Respondent's ideal policy in candidate 1's economic policy area (1-4)
c_p1_rank	numeric	Respondent's ranking of candidate 1's economic policy area (1-4, based on policy ratings & random tiebreak)
c_p1_distance	numeric	Spatial distance on economic policy between candidate 1 and respondent (description in Appendix B)
c_p2_code	character	Candidate 1's economic policy position (I1-I4, M1-M4)
c_p2_rate	numeric	Respondent's rating of candidate 1's economic policy position
c_p2_area	character	Candidate 1's social policy area (I or M)
c_p2_num	integer	Candidate 1's social policy number (1-4). This doubles as a liberal (1) to conservative (4) scale.
c_p2_imp	numeric	Respondent's importance rating of candidate 1's social policy
c_p2_ideal	integer	Respondent's ideal policy in candidate 1's social policy area (1-4)
c_p2_rank	numeric	Respondent's ranking of candidate 1's social policy area (1-4, based on policy ratings & random tiebreak)
c_p2_distance	numeric	Spatial distance on social policy between candidate 1 and respondent (description in Appendix B)
c_dem_code	character	Candidate 1's democracy position
c_dem_type	character	Candidate 1's democracy type (g = generic/neutral/D+, u = undemocratic/D-, v = valence/V-)
c_dem_codeLR	character	Candidate 1's democracy position with ban left/right protests separated

c_dem_rate	numeric	Respondent's rating of candidate 1's democracy position
c_dem_code_g_schedule	binary	Indicator variable for a value of c_dem_code
c_dem_code_u_gerry10	binary	"
c_dem_code_g_boardElect	binary	"
c_dem_code_g_record	binary	"
c_dem_code_g_procedure	binary	"
c_dem_code_u_limitVote	binary	"
c_dem_code_u_execRule	binary	"
c_dem_code_g_progEval	binary	"
c_dem_code_v_tax	binary	"
c_dem_code_v_affair	binary	"
c_dem_code_g_officestructure	binary	"
c_dem_code_u_banProtest	binary	"
c_dem_code_u_gerry2	binary	"
c_dem_code_u_journalists	binary	"
c_dem_code_g_committee	binary	"
c_dem_code_u_court	binary	"
c_dem_code_u_gerry10_non	binary	"
c_dem_code_u_gerry2_non	binary	"
c_dem_code_u_banLeftProtest	binary	Indicator variable for a value of c_dem_codeLR
c_dem_code_u_banRightProtest	binary	"
c_dem_type_g	binary	Indicator variable for a value of c_dem_type
c_dem_type_u	binary	"
c_dem_type_v	binary	"
c_sex	character	Candidate 1's gender
c_sex_Male	binary	Indicator for a value of c_sex
c_sex_Female	binary	"
c_race	character	Candidate 1's race / Hispanic ethnicity
c_race_White	binary	Indicator for a value of c_race
c_race_Black	binary	"
c_race_Hispanic	binary	"
c_race_Asian	binary	"
c_pro	character	Candidate 1's profession
c_pro_Legislative_staffer	binary	Indicator for a value of c_pro
c_pro_Lawyer	binary	"
c_pro_Small_business_owner	binary	"
c_pro_Teacher	binary	"
c_pro_Farmer	binary	"
c_pro_Police_officer	binary	"
c_pro_Business_executive	binary	"
c_pro_Served_in_the_army	binary	"
c_pro_Served_in_the_navy	binary	"
c_age	integer	Candidate 1's age
c_exper	integer	Candidate 1's years of experience
c_onLeft	binary	Indicator for candidate 1 appearing on the left (labelled "candidate 1" to the respondent, but NOT in the data)
c_respParty	binary	Is candidate 1 of the respondent's party?
o_win	binary	Opponent version of c_win
o_vote	binary	Opponent version of c_vote
o_party	character	Opponent version of c_party
o_Party	character	Opponent version of c_Party
o_prox	numeric	Opponent version of c_prox
o_proxSq	numeric	Opponent version of c_proxSq
o_distance	numeric	Opponent version of c_distance
o_pRate	numeric	Opponent version of c_pRate
o_pRank	numeric	Opponent version of c_pRank
o_distSq	numeric	Opponent version of c_distSq
o_pRateSq	numeric	Opponent version of c_pRateSq

o_pRankSq	numeric	Opponent version of c_pRankSq
o_p1_code	character	Opponent version of c_p1_code
o_p1_rate	numeric	Opponent version of c_p1_rate
o_p1_area	character	Opponent version of c_p1_area
o_p1_num	integer	Opponent version of c_p1_num
o_p1_imp	numeric	Opponent version of c_p1_imp
o_p1_ideal	integer	Opponent version of c_p1_ideal
o_p1_rank	numeric	Opponent version of c_p1_rank
o_p1_distance	numeric	Opponent version of c_p1_distance
o_p2_code	character	Opponent version of c_p2_code
o_p2_rate	numeric	Opponent version of c_p2_rate
o_p2_area	character	Opponent version of c_p2_area
o_p2_num	integer	Opponent version of c_p2_num
o_p2_imp	numeric	Opponent version of c_p2_imp
o_p2_ideal	integer	Opponent version of c_p2_ideal
o_p2_rank	numeric	Opponent version of c_p2_rank
o_p2_distance	numeric	Opponent version of c_p2_distance
o_dem_code	character	Opponent version of c_dem_code
o_dem_type	character	Opponent version of c_dem_type
o_dem_codeLR	character	Opponent version of c_dem_codeLR
o_dem_rate	numeric	Opponent version of c_dem_rate
o_dem_code_g_schedule	binary	Opponent version of c_dem_code_g_schedule
o_dem_code_u_gerry10	binary	Opponent version of c_dem_code_u_gerry10
o_dem_code_g_boardElect	binary	Opponent version of c_dem_code_g_boardElect
o_dem_code_g_record	binary	Opponent version of c_dem_code_g_record
o_dem_code_g_procedure	binary	Opponent version of c_dem_code_g_procedure
o_dem_code_u_limitVote	binary	Opponent version of c_dem_code_u_limitVote
o_dem_code_u_execRule	binary	Opponent version of c_dem_code_u_execRule
o_dem_code_g_progEval	binary	Opponent version of c_dem_code_g_progEval
o_dem_code_v_tax	binary	Opponent version of c_dem_code_v_tax
o_dem_code_v_affair	binary	Opponent version of c_dem_code_v_affair
o_dem_code_g_officestructure	binary	Opponent version of c_dem_code_g_officestructure
o_dem_code_u_banProtest	binary	Opponent version of c_dem_code_u_banProtest
o_dem_code_u_gerry2	binary	Opponent version of c_dem_code_u_gerry2
o_dem_code_u_journalists	binary	Opponent version of c_dem_code_u_journalists
o_dem_code_g_committee	binary	Opponent version of c_dem_code_g_committee
o_dem_code_u_court	binary	Opponent version of c_dem_code_u_court
o_dem_code_u_gerry10_non	binary	Opponent version of c_dem_code_u_gerry10_non
o_dem_code_u_gerry2_non	binary	Opponent version of c_dem_code_u_gerry2_non
o_dem_code_u_banLeftProtest	binary	Opponent version of c_dem_code_u_banLeftProtest
o_dem_code_u_banRightProtest	binary	Opponent version of c_dem_code_u_banRightProtest
o_dem_type_g	binary	Opponent version of c_dem_type_g
o_dem_type_u	binary	Opponent version of c_dem_type_u
o_dem_type_v	binary	Opponent version of c_dem_type_v
o_sex	character	Opponent version of c_sex
o_sex_Male	binary	Opponent version of c_sex_Male
o_sex_Female	binary	Opponent version of c_sex_Female
o_race	character	Opponent version of c_race
o_race_White	binary	Opponent version of c_race_White
o_race_Black	binary	Opponent version of c_race_Black
o_race_Hispanic	binary	Opponent version of c_race_Hispanic
o_race_Asian	binary	Opponent version of c_race_Asian
o_pro	character	Opponent version of c_pro
o_pro_Legislative_staffer	binary	Opponent version of c_pro_Legislative_staffer
o_pro_Lawyer	binary	Opponent version of c_pro_Lawyer
o_pro_Small_business_owner	binary	Opponent version of c_pro_Small_business_owner
o_pro_Teacher	binary	Opponent version of c_pro_Teacher
o_pro_Farmer	binary	Opponent version of c_pro_Farmer

o_pro_Police_officer	binary	Opponent version of c_pro_Police_officer
o_pro_Business_executive	binary	Opponent version of c_pro_Business_executive
o_pro_Served_in_the_army	binary	Opponent version of c_pro_Served_in_the_army
o_pro_Served_in_the_navy	binary	Opponent version of c_pro_Served_in_the_navy
o_age	integer	Opponent version of c_age
o_exper	integer	Opponent version of c_exper
o_onLeft	binary	Opponent version of c_onLeft
o_respParty	binary	Is candidate 2 of the respondent's party?
diff_prox	numeric	Difference between c_ and o_ variables with same suffix
diff_proxSq	numeric	Difference between c_ and o_ variables with same suffix
diff_distance	numeric	Difference between c_ and o_ variables with same suffix
diff_pRate	numeric	Difference between c_ and o_ variables with same suffix
diff_pRank	numeric	Difference between c_ and o_ variables with same suffix
diff_distSq	numeric	Difference between c_ and o_ variables with same suffix
diff_pRateSq	numeric	Difference between c_ and o_ variables with same suffix
diff_pRankSq	numeric	Difference between c_ and o_ variables with same suffix
diff_p1_rate	numeric	Difference between c_ and o_ variables with same suffix
diff_p1_num	numeric	Difference between c_ and o_ variables with same suffix
diff_p1_imp	numeric	Difference between c_ and o_ variables with same suffix
diff_p1_rank	numeric	Difference between c_ and o_ variables with same suffix
diff_p1_distance	numeric	Difference between c_ and o_ variables with same suffix
diff_p2_rate	numeric	Difference between c_ and o_ variables with same suffix
diff_p2_num	numeric	Difference between c_ and o_ variables with same suffix
diff_p2_imp	numeric	Difference between c_ and o_ variables with same suffix
diff_p2_rank	numeric	Difference between c_ and o_ variables with same suffix
diff_p2_distance	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_rate	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_schedule	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_gerry10	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_boardElect	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_record	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_procedure	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_limitVote	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_execRule	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_progEval	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_v_tax	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_v_affair	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_officestructu	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_banProtest	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_gerry2	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_journalists	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_g_committee	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_court	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_gerry10_no	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_gerry2_non	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_banLeftProt	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_code_u_banRightPr	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_type_g	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_type_u	numeric	Difference between c_ and o_ variables with same suffix
diff_dem_type_v	numeric	Difference between c_ and o_ variables with same suffix
diff_sex_Male	numeric	Difference between c_ and o_ variables with same suffix
diff_sex_Female	numeric	Difference between c_ and o_ variables with same suffix
diff_race_White	numeric	Difference between c_ and o_ variables with same suffix
diff_race_Black	numeric	Difference between c_ and o_ variables with same suffix
diff_race_Hispanic	numeric	Difference between c_ and o_ variables with same suffix
diff_race_Asian	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Legislative_staffer	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Lawyer	numeric	Difference between c_ and o_ variables with same suffix

diff_pro_Small_business_own	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Teacher	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Farmer	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Police_officer	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Business_executive	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Served_in_the_army	numeric	Difference between c_ and o_ variables with same suffix
diff_pro_Served_in_the_navy	numeric	Difference between c_ and o_ variables with same suffix
diff_age	numeric	Difference between c_ and o_ variables with same suffix
diff_exper	numeric	Difference between c_ and o_ variables with same suffix
diff_respParty	numeric	Difference between c_ and o_ variables with same suffix
diff_prox_bin	numeric	Binned version of diff_prox. Value is the midpoint of the bin.
diff_proxSq_bin	numeric	Binned version of diff_proxSq
diff_pRate_bin	numeric	Binned version of diff_pRate
diff_pRateSq_bin	numeric	Binned version of diff_pRateSq (used in Figure 2)
diff_distance_bin	numeric	Binned version of diff_distance_distance
diff_distSq_bin	numeric	Binned version of diff_distSq
diff_pRank_bin	numeric	Binned version of diff_pRank
diff_pRankSq_bin	numeric	Binned version of diff_pRq
m_respSameParty	character	Is candidate 1 of the respondent's party? Values: "Resp diff", "Resp same"
m_candSameParty	character	Are the candidates of the same party? Values: "Cand diff", "Cand same"
pid_relative	character	Respondent's party ID relative to candidate 1
m_platformDist	numeric	$\text{abs}(c_p1_num - o_p1_num + c_p2_num - o_p2_num)/2$
m_dem_code	character	Takes value "Generic" for D+ vs. D+, otherwise takes the undemocratic candidate's value of c_dem_code. (Used to create treatment-by-treatment figures in the appendix)
R_win	binary	Did the Republican candidate win? (NA for same-party)
noSamePolicy	binary	TRUE if candidates do not take the same policy position in either policy area, FALSE otherwise
partyPolicyAligned	binary	TRUE if the Democrat is to the left of the Republican on both policies, FALSE otherwise
moreD_win	binary	Did the more democratic candidate win?
Type	character	Both candidates' democracy positions

Variables in data_covariates.csv and data_experiment.csv

Variable	Type	Description
<i>All variables below are respondent-level variables</i>		
id	numeric	Unique respondent ID
st	character	State abbreviation
ideo	character	Ideology (7-point scale)
trump	character	Approval of Trump
tax	character	Tax policy group (controls slight differences in candidate positions that match respondent's state)
age	integer	Age
gender	character	Gender
hhi	character	Household income
ethnicity	character	Ethnicity
hispanic	character	Hispanic
education	character	Education
state	character	State abbreviation
educ	character	Education
age_cut	character	Age, bins used in appendix tables & figures
race	character	Race
hhi_cut	character	Household income, groups used in appendix tables & figures

pid_lean	character	Party, including leaners (one letter)
pid7	integer	7-point party ID (coded -3 to 3)
pid_Lean	character	Party, including leaners (full word)
Party7	character	7-point party ID (text)
pid_fold	integer	Absolute value of pid7
E1	numeric	Respondent's rating of economic policy position #1
E2	numeric	Respondent's rating of economic policy position #2
E3	numeric	Respondent's rating of economic policy position #3
E4	numeric	Respondent's rating of economic policy position #4
I1	numeric	Respondent's rating of immigration policy position #1
I2	numeric	Respondent's rating of immigration policy position #2
I3	numeric	Respondent's rating of immigration policy position #3
I4	numeric	Respondent's rating of immigration policy position #4
M1	numeric	Respondent's rating of marijuana policy position #1
M2	numeric	Respondent's rating of marijuana policy position #2
M3	numeric	Respondent's rating of marijuana policy position #3
M4	numeric	Respondent's rating of marijuana policy position #4
T1	numeric	Respondent's rating of tax policy position #1
T2	numeric	Respondent's rating of tax policy position #2
T3	numeric	Respondent's rating of tax policy position #3
T4	numeric	Respondent's rating of tax policy position #4
E_ideal	character	Ideal economic policy (based on policy ratings, random)
I_ideal	character	Favorite immigration policy (random tiebreaker)
M_ideal	character	Respondent's favorite marijuana policy (random tiebreaker)
T_ideal	character	Respondent's favorite tax policy (random tiebreaker)
knowl_ryan	character	Paul Ryan's job or political office (multiple choice version of 2016 ANES)
knowl_roberts	character	John Roberts' job or political office (multiple choice version of 2016 ANES)
knowl_merkel	character	Angela Merkel's job or political office (multiple choice version of 2016 ANES)
knowl_putin	character	Vladimir Putin's job or political office (multiple choice version of 2016 ANES)
knowl_spend	character	Foreign aid spending (from 2016 ANES)
knowl_house	character	House party control (from 2016 ANES)
auth_respect	character	Authoritarian personality battery (from 2016 ANES)
auth_manners	character	Authoritarian personality battery (from 2016 ANES)
auth_obey	character	Authoritarian personality battery (from 2016 ANES)
auth_behave	character	Authoritarian personality battery (from 2016 ANES)
voteduty	character	Voting a duty or a choice (from 2016 ANES)
auth_total	integer	0-4 sum of authoritarianism battery
knowl_senate_party	character	Senate party control (multiple choice version of 2016 ANES)
knowl_senate_term	character	Senate term length (multiple choice version of 2016 ANES)
knowl_anes_total	integer	0-8 sum of correct answers to ANES knowledge questions

Variables in data_howDemocratic.csv and data_experiment.csv

Variable	Type	Description
id	numeric	Unique respondent ID
dem_better	character	"Democracy may have problems, but it is better than any other form of government."
dem_satisfied	character	To what extent do you agree or disagree with this statement? On the whole, are you satisfied with the way democracy works in the United States?
dem_gerry	character	How strongly do you support or oppose gerrymandering?

dem_ess_taxRich	character	[WVS essential for democracy] Governments tax the rich and subsidize the poor. (N)
dem_ess_religLaw	character	[WVS essential for democracy] Religious authorities ultimately interpret the laws. (D-)
dem_ess_elections	character	[WVS essential for democracy] People choose their leaders in free elections. (D+)
dem_ess_unempAid	character	[WVS essential for democracy] People receive state aid for unemployment. (N)
dem_ess_coups	character	[WVS essential for democracy] The army takes over when government is incompetent. (D-)
dem_ess_civilRights	character	[WVS essential for democracy] Civil rights protect people from state oppression. (D+)
dem_ess_incomeEqual	character	[WVS essential for democracy] The state makes people's incomes equal. (N)
dem_ess_obeyRuler	character	[WVS essential for democracy] People obey their rulers. (N)
dem_ess_womenEqual	character	[WVS essential for democracy] Women have the same rights as men. (D+)
dem_UStoday	character	How democratically is the United States being governed today?

		Please choose on a scale from 1 to 10, where 1 means it is "not at all democratic" and 10 means "completely democratic."
dem_sys_strongman	character	[WVS systems of government] Having a strong leader who does not have to bother with Congress or elections
dem_sys_experts	character	[WVS systems of government] Having experts, not government, make decisions for the country
dem_sys_army	character	[WVS systems of government] Having the army rule
dem_sys_democracy	character	[WVS systems of government] Having a democratic political system
dem_world_pressDisagree	character	[Practices around the world] Journalists frequently disagree with the president's policies. (D+)
dem_world_propToMaj	character	[Practices around the world] The legislature changed the electoral system from proportional to majoritarian
dem_world_welfare	character	[Practices around the world] A candidate promised an increase in welfare benefits to attract voters. (N)
dem_world_coup	character	[Practices around the world] The military overthrew a corrupt government. (D-)
dem_world_halfVote	character	[Practices around the world] About half of the country's registered voters do not turn out to vote in legislative elections.
dem_world_govCampaign	character	[Practices around the world] Candidates from the incumbent party use government resources when campaigning for re-
dem_world_termLimit	character	[Practices around the world] The country's legislature passed a law that bans sitting presidents from running for re-election. (N)
dem_world_eVote	character	[Practices around the world] The government switched from paper ballots to electronic voting machines. (N)
dem_treat_journalists	character	[Practices around the world + treatment check] The government prosecutes journalists who criticize the president and refuse to reveal sources. (D-)
dem_treat_banProtest	character	[Practices around the world + treatment check] Far-[left/right] groups are banned from holding public rallies. (D-)
dem_treat_execRule	character	[Practices around the world + treatment check] The president began ruling by executive order after legislators from opposition parties refused to cooperate with his administration. (D-)
dem_treat_ignoreCourt	character	[Practices around the world + treatment check] The government ignores unfavorable court rulings. (D-)

dem_treat_redistrict	character	[Practices around the world + treatment check] The largest party redrew legislative districts in order to secure its control of the legislature for the next term. (D-)
dem_treat_limitVote	character	[Practices around the world + treatment check] The government cut the number of polling stations in areas that support the opposition. (D-)
dem_treat_banLeftProtest	character	[Practices around the world + treatment check] Far-left groups are banned from holding public rallies. (D-)
dem_treat_banRightProtest	character	[Practices around the world + treatment check] Far-right groups are banned from holding public rallies. (D-)
